## Arch Angel

*Brow Specialist Rashida B.*

Your treatment for anxiety is a bath and a session with Dr. Cabernet. For you, therapy has always been a DIY affair.

Until it came to your eyebrows, where self-analysis revealed an unfinished Mrs. Potato Head.

Leave your eyes to expert [Rashida B.](#) The brow guru will be sculpting arches in Miami one week a month, starting March 17. (Hint: Nab an appointment now.)

Rashida analyzes the shape of your face to find your best brow (square or oblong faces need soft arches; round needs angles). She then tweezes each hair individually, creating near-perfect symmetry.

Rashida can teach you to maintain the look for up to eight weeks, during which time you'll need less makeup, appear more put together, and look younger.

Which should do wonders for your ego.

Available at Metropole, 635 Collins Avenue, Miami Beach. To make an appointment, call 305-735-3392 or go to [brows-miami.com](http://brows-miami.com).
